

WRAP SYSTEMS

NOUVEAU NAIL ADVANCED FORMULA WRAP SYSTEM

Our wrap system offers the flexibility of either an ultra-pure thin resin with a spray-on activator or an extra-thick brush-on wrap gel with a unique, silky smooth brush-on activator. When combined with **Sheer Strength Fabric™**, either method will result in extremely strong and long-lasting enhancements. ***Spray on or brush on — the choice is yours!***

SPRAY-ON APPLICATION

- 1) **10-Step Quick Prep** (See Page 5).
- 2) Apply a thin layer of **Advanced Formula Resin™** to the surface of each nail. Cover entire nail up to the free edge without contacting side walls and cuticle area.
- 3) Mist with **Super Fast Set Activator Spray™**, holding the sprayer 6" from the nails.
- 4) Place a strip of Sheer Strength Fabric™ on the nail plate.
- 5) Use scissors to trim fabric to within 1/16" of the side walls and cuticle area, leaving the free edge completely covered.
- 6) Ensure fabric is pressed flat to the nail.
- 7) Spread Advanced Formula Resin™ over each nail surface, making sure to completely saturate the fabric without contacting side walls and cuticle area.
- 8) Mist with Super Fast Set Activator Spray™, holding the sprayer 6" from the nails.
- 9) For added strength, repeat Steps 7 and 8.
- 10) Once nails have set, use a 4-way buffer to smooth any imperfections.
- 11) Remove dust with a clean scrub brush.
- 12) Apply **Xtreme Nail™ Cuticle Oil** to nails and massage into cuticles.
- 13) Buff to a smooth finish.
- 14) Wash hands thoroughly to remove oil and dust.

Finishing Options

- Polish with a **Nouveau Spa Lacquer™** and seal with a coat of **Super Fast Top Coat™**.
- Apply a coat of **Glass Seal™** for a durable, glass-like finish, followed by a coat of **Super Fast Top Coat™** for added UV protection.
- Apply a coat of **Super Seal™ UV Gel Sealer** over the nails to achieve a high gloss shine, extreme durability and long-lasting protection. Avoid cuticle area and extend over free edge to allow for shrinkage. Cure for 3 minutes.
